### Container terminology

**The following abbreviations and definitions describe the different types of intermodal shipping containers**

OS = Open Side: ideal for loading longer and wider items

OT = Open Top: enables the loading and transport of oversized items

DC = Dry Cargo: the most common type of container for typical cargo loads

HC = High Cube: a taller container with 30 cm more height than a standard DC container

PW = Pallet Wide: a wider container with 9 cm more width than a standard DC container

RC = Reefer Container: a refrigerated container suitable for temperature-sensitive items

Flat = Flat Rack: collapsible sides for transporting heavier, wider, oversized goods

Bulk = Bulk Container: ideal for bulk-loading and transporting fine-grained substances

DD = Double Door: a container with double doors on both ends

C = Curtain

FSA = Full Side Access

## **Quality**

At Ivy Global Logistics, we take immense pride in offering container products of the highest quality, meticulously selected to meet the rigorous demands of modern logistics. Each container in our inventory undergoes thorough inspection and meets stringent standards for durability, safety, and reliability. From standard dry containers to specialized refrigerated units, our diverse range of products caters to a wide spectrum of transportation and storage needs. We understand that the quality of our containers directly impacts the success of our clients' operations, which is why we spare no effort in ensuring that every container we offer exceeds industry standards.

In addition to top-quality products, Ivy Global Logistics is committed to providing comprehensive service that goes above and beyond our clients' expectations. Our team of experts is dedicated to understanding the unique requirements of each client and offering tailored solutions to meet their specific needs. From assisting with container selection to providing ongoing support throughout the shipping process, we are here to ensure a seamless experience from start to finish. With Ivy Global Logistics, you can trust that you are not just getting a container – you are getting a reliable partner committed to your success.
